

Handmade Beaded Wedding Jewelry

Your vows are made to last a lifetime...

Why not your jewelry as well?

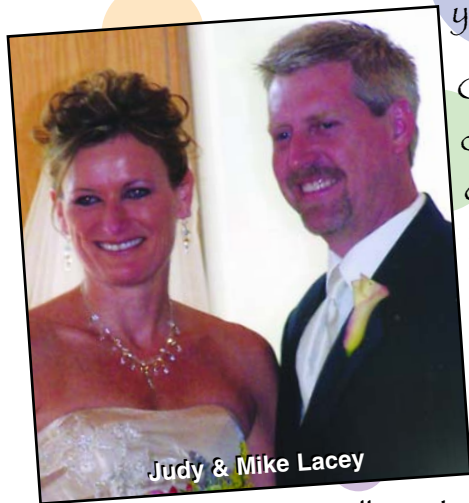

Although much attention is always given to the beauty and symbolism of your wedding ring, the rest of your wedding jewelry will certainly be an important part of your special day.

There is so much out there in the world of bridal accessories, but so much of it is made from plated metals, glass beads and poor quality pearls, which will all lack the beauty, uniqueness and sentiment of your wedding. Rather, your wedding day is a time to be adorned with the best!

This is why you should consider handcrafted beaded jewelry which is made from the finest materials on the market, such as genuine Swarovski crystals, cultured freshwater pearls, sterling silver or 14k gold filled beads, and/or semi-precious stones. Sounds expensive? You'll be surprised what you can make, or have made for you at **Bead Happy** in Waterloo.

Our bridal jewelry can be handmade and customized per your specific taste, colors, and sizes. We start by consulting with each of our brides to discover their personal preferences as well as information regarding how their hair will be styled and the necklines of the bridal gown and bridesmaid's gowns.

You'll find the custom made jewelry will be exactly what you imagined it would be – and you will no doubt be pleasantly surprised by the cost. For example, sterling silver and Swarovski crystal earrings start at \$6 a pair! But best of all, you will not be compromising quality for yourself or your bridesmaids and you will have gorgeous jewelry for your wedding day and many special occasions to come!

Call Penny at **Bead Happy** to schedule an appointment. Or, take advantage of our large party room and bring the wedding party here! Bring along food and beverages and enjoy a relaxing, memorable day of jewelry making with friends. You'll **Bead Happy** you did!

Bead Happy

209 W. 5th Street Waterloo, IA 50701 319.232.1838

"I wanted to look perfect on my wedding day and the only place where I could get exactly what I had dreamed of was at Bead Happy. I made a choker, bracelet and earrings to complement my wedding gown, but I couldn't stop there. I also made great gifts for my attendants. This was the first time I had ever made my own jewelry and the Bead Happy Staff was extremely helpful in assisting me. I am left with not only the great memories of our wedding day but the joy that I had in planning it, including the time I spent at Bead Happy creating the accessories that made the day sparkle even more!"

May God Bless You!
Jennifer "Fischels" Pratt
